## ASPHALT PATCH

### *Paving Patch Material*

Cracks, potholes and fault lines are the pits to fill. With "Asphalt Patch" you have an easy, durable solution for filling those annoying, unattractive craters in the pavement. This hardy sealant is made from a mix of flexible yet resilient ingredients including screened aggregate, tar and asphalt binders. It remains pliable within its container until it is applied to pavement surfaces. Even when temperatures dip as low as 15°F, it remains loose enough for easy application. Once applied, cracks remain sealed, even in the most severe weather.

### Use For Repairing:

- Asphalt
- Black Top
- Driveways
- Brick roads
- Parking areas
- Playgrounds

### Features and Benefits

- Can be used in any weather
- No primer Coat is needed
- Can be used in temperatures as low as 15°F

### Properties

Appearance.....	Black liquid
Fragrance .....	Petroleum odor
Ready to Use.....	Yes
Specific gravity.....	1.01
Flash point.....	450° F
Stability.....	2 years at 70° F

**Directions** Complete directions on product label  
Brush way dust and dirt then simply fill crack or hole.

### Active Ingredients

Asphalt.....	.....
Hydrogen Sulfide.....	.....

### CAS Number

8052-42-4  
7783-06-4

### Safety

Caution: Avoid breathing vapors. Keep out of the reach of children
