## CHELATED IRON

*Cures and prevents iron deficiencies in the soil*

This nourishing mineral supplement provides an easily absorbed form of iron required to prevent or cure iron chlorosis in turf, ornamental shrubs and trees. It is very versatile and can be applied or injected into the soil, or sprayed directly onto foliage.

Use On:

- Trees
- Turf
- Athletic fields
- Golf courses

### Features and Benefits

- Reverses or reduces the pale green or yellow discoloration associated with chlorosis.
- Provides iron in a form that is immediately available to vegetation.
- Remains in the soil for extended feeding.
- Is compatible with tank mixes of most fertilizers, insecticides fungicides and penetrating aids.

### Properties
