## LIQUID FERTILIZER 20-2-3

*For spring or early summer application*

This concentrated fertilizer features a controlled release nitrogen blend that provides longer, more even feeding of plants. This special formula also offers fast green-up and extended feeding without burning, and its convenient liquid form is easy to mix and apply and assures quick absorption by foliage and roots.

### Features and Benefits

- Provides even, slow release of nutrients to turf grass
- High nitrogen content promotes lush greening and fast growth of turf
- Nutrients last longer and are more even distributed without causing burning
- Recommended for spring and early summer application

### Properties

Appearance.....	Blue Liquid
Fragrance .....	Slight
