## Machine Dish Detergent

*Powdered detergent with 1% chlorine*

This heavy-duty dishwashing powder features a low-foaming, biodegradable formula designed for use in large industrial dish washing machines. It combines a powerful blend of cleaning agents and 1% chlorine to quickly cut through heavy grease, food deposits and protein soils. Additional sequestering agents assure thorough cleaning of a wide variety of dishware including glass, porcelain, plastic, stainless steel, copper and earthenware.

### Effective Against:

- Grease and oil
- Proteins and fats
- Heavy food buildup
- Soils and stains

### Features and Benefits

- Cuts through heavy food build-up, dried-on deposits and stubborn grease and oil.
- Cleans glass, porcelain, metal, plastic and earthenware, even in hard water.
- Meets the chlorine residual needed in the food service industry.

### Properties

Appearance.....	White powder
Fragrance.....	Chlorine
Concentrate.....	Yes
Solubility.....	Complete in water
