LIQUID FERTILIZER 4-12-8

Simulates healthy, fast and deep root growth

This liquid fertilizer is designed for use in newly seeded areas, or for late season winterizing. Its special application formula has a high phosphorous content to toughen and promote growth, while extra potassium encourages proper stalk development. Its low nitrogen content assures safe application without burning at any time of the year.

Use on:

- Ornamental turf
- Shrubs
- Athletic fields
- Newly seeded areas
- Golf greens
- Nursery stock

Features and Benefits

- High phosphorus levels promote root development.
- High-potency blend is ideal as a late-season winterizer.
- Safe for application throughout the year.
- Can be applied directly, or injected into irrigation systems.

Properties

Appearance.....	Liquid
Fragrance	None
Concentrate.....	Yes
Soluble.....	Water dilutable

Directions **Complete directions on product label**

Lawn and Turf: Mix 1 gallon with sufficient water to cover 3,000 to 5,000 square feet.
For shrubs and nursery stock: Use 1 quart to 1 gallon according to the size of the plant.
For Trees: Use 1 gallon in 100 gallons and apply 4 gallon per inch of tree diameter.

Active Ingredients

	Amount Active
Total Nitrogen (3% ammonical nitrogen and 1% water soluble nitrogen)	4%
Phosphorus as phosphoric acid	12%
Soluble potash (K2)	8%

Safety

Caution: Harmful if swallowed or absorbed through the skin. Keep out of the reach of children.
