## Snow Plow and Shovel Release Agent

### *Asphalt release agent*

Provides a molecular film — a thin, heat-resistant shield —that does not allow hot, sticky asphalt to adhere to surfaces. Asphalt will slide right off dump beds, rollers, spreaders, rakes, shovels and other surfaces. Made with 100% natural ingredients. No hazardous diesel fuels, no harmful or noxious fumes. The special biodegradable formula is safe for both users and the environment, and it won't degrade the quality of the asphalt. It even works as a seal to protect against the damaging effects of rust and corrosion.

### Use On:

- Dump Beds
- Rollers
- Snow Removal Equipment
- Trucks
- Spreaders
- Snow Throwers
- Rakes
- Shovels
- Snow Mobiles

### Effective Against:

- Asphalt deposits
- Rust and Corrosion
- Snow

### Features and Benefits

- Prevents surfaces and saves time and money during clean up
- Extends the working life of expensive tools and equipment
- 100% natural and biodegradable formula will not harm equipment or degrade quality of asphalt or damage the environment.

### Properties

Appearance.....	Yellow liquid
Fragrance.....	Slight soy odor
Concentrate.....	Yes
pH.....	9.5 – 11.5
Flash point.....	>200 ° F
VOC content.....	<1 % by wt.
Application.....	Spray, brushing, or swabbing.

### Directions

 Complete directions on product label

Mix one quart of product with 2 to 2-1/2 gallons of water and applying with a 3 gallon sprayer. Must agitate briskly to ensure good mixture.

For large volume usage, use with a proportioning device diluting one part release agent with 20 to 40 parts water.

### Active Ingredients

	CAS Number
Water.....	7732-18-5
Blended Tall Oil distillates .....	8002-26-4
Tetrasodium EDTA.....	64-02-8
Potassium Hydroxide.....	1310-58-3
Methyl Ester of Soybean Oil.....	67784-80-9

### Safety

Caution: May irritate eyes and skin. Keep out of the reach of children
