## Super Spray Urethane Sealer

*Water-based urethane finish & sealer*

This liquid finish and sealer is designed specifically for maximum adherence to terrazzo and other porous stone flooring. Its water-based urethane formula also offers a superior base coat for acrylic finishes that are subjected to burnishing or spray buffing operations. It forms a solid, level surface and creates strong bonds between the finish and the floor's surface.

### Features and Benefits

- Gives floors a "tough-as-stone" foundation to create sparkling finishes.
- Forms a solid, flat surface.
- Allows solids in the finish to reflect light straight up, creating a "wet-look."
- Creates a strong bond between the finish and the floor.

### Properties
