Surfactant

Increases effectiveness of ground maintenance chemicals

An economical, water-soluble spreader and wetting agent that increases the effectiveness of herbicides, insecticides, fertilizers and other solutions by reducing their surface tension. It allows them to be absorbed more quickly into the soil and foliage while reducing run-off and waste. The addition of this product to your spray solutions assures maximum use of your pesticides and fertilizers while ensuring optimum cost effectiveness.

Features and Benefits

- Reduces surface tension of fertilizers and pesticide solutions
- Assures even and thorough coverage of foliage
- Reduces wash-off of expensive pesticides and fertilizers
- Increases the effectiveness of fertilizers, herbicides, insecticides, fungicides, iron and micronutrient solution

Properties

Appearance.....	Green Liquid
Fragrance	Detergent
Concentrate.....	Yes
Biodegradable.....	Yes

Directions

 Complete directions on product label

Dilute 1 gallon per 1000 gallons of spray solution. Follow manufacturer's recommendations on the chemical label.
