Water Wetter

Increases the penetrating ability of water

This special chemical additive increases the wetting and penetrating ability of water. Designed for use in fighting stubborn, smoldering fires, it reduces the surface tension of water to allow it penetrate faster and reduces the total amount of water needed to extinguish the blaze. Its formula is biodegradable and non-corrosive, so it won't harm water tanks and fittings. It's also compatible with fire fighting foams and tank protectors.

Use on:

- Upholstery fires
- Hay fires
- Bedding fires
- Brush fires
- Paper fires
- Roadways to control dust

Features and Benefits

- Increases the wetting and penetrating ability of water.
- Special wetting agent is designed to help fight stubborn, smoldering fires in upholstery, bedding paper, hay and brush.
- Treated water penetrates more quickly, extinguishing blazes with only 1/3 as much water.
- Biodegradable and non-corrosive formula.
- Will not harm tanks or fittings.
- Compatible with foams and tank protectors.

Properties

Appearance.....	Green Liquid
Fragrance	Detergent
Concentrate.....	Yes
Biodegradable.....	Yes

Directions

Complete directions on product label
To increase the wetting ability of water used in a fire, use ½ to 1 gallon per 100 gallons of water.

To Control dust on unpaved roads and yards: Mix 1-2 quarts per 100 gallons of water then spray over roads.

Ingredients

	CAS Number
Water	7732-18-5
Poly (oxyethylene) nonylphenol	9016-45-9
Green dye	19381-50-1

Safety

Caution: May irritate eyes. Keep out of the reach of children
