

Tested and Proven to Remove 99.99% of COVID-19/SARS-Cov-2 Airborne Particles

Medify Air LLC, in conjunction with Aerosol Research and Engineering Laboratories, have announced promising test results for the MA-40 and MA-50 air purifiers and their ability to reduce the amount of airborne pathogens associated with the SARS-CoV-2 (COVID-19) virus.

Medify's MA-40 and MA-50 air purifiers, designed for commercial and residential applications, were found to remove 99.99% of airborne particles related to COVID-19 (SARS-CoV-2) in as little as 30 minutes at its highest speed.

The MA-40 and MA-50 air purifiers from Medify are equipped with True HEPA H13 filters and are designed to reduce airborne volume of bacteria, viral particles, mold and fungal spores, and other airborne particles in controlled room air. In this study, ARE Labs subjected the MA-40 and MA-50 purifiers to efficacy testing at Speed 1 and Speed 3 to demonstrate their effectiveness against viruses, bacteria, and mold spores.

At both speeds and against different organisms, Medify air purifiers were found to reduce viable bioaerosol concentrations of viruses. To read the full report from ARE Labs, please [click here](#).

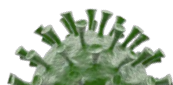

Air Purification is Now Essential to Safe Reopening of Schools

As educators begin to shift back to full-time, in-person instruction this fall, they will be able to assess the extent of their students' learning loss and determine which interventions are best.

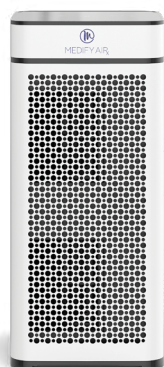

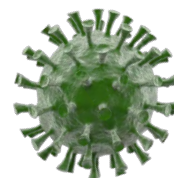

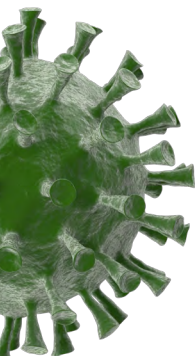

Medify Air purifiers are equipped with HEPA H13 filters which remove 99.9% of airborne particles down to 0.1 microns in size, which is smaller than the size of a COVID virus particle. Medify offers discounts and financing for schools and businesses looking to buy in bulk. **Speak to our team** of clean air experts to determine a plan that makes the most of your school's budget.

We're incredibly encouraged by the results of this study conducted by ARE Labs regarding the effectiveness of Medify's MA-40 and MA-50 air purifiers. With the MA-40 and MA-50 models, reducing the amount of viral particles in the air is as simple as turning on the machine and allowing it to go to work.

- J HENRY SCOTT, MEDIFY CEO

Medify's MA-40 and MA-50 air purifiers are in stock and ready to ship. See below for pricing and product information. Financing is available. Bulk orders arrive in 5-7 business days.

MA-40 MSRP \$269.99 | **B2B \$242.99**

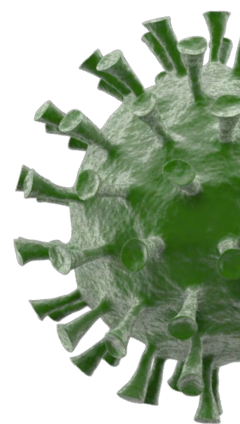

- Ozone-free Ionizer
- Can clean 1,600 sq. ft. every 60 minutes, 840 sq. ft. every 30 minutes, 420 sq. ft. every 15 minutes
- Pre-filter, True HEPA H13 filter, and Activated carbon for odors
- CADR (Clean Air Delivery Rate) of 330m³/h
- 3 Fan Speeds
- Child Lock
- 0-8 Hour Timer
- Filter Indicator
- Filter lasts 4-5 months or 3,000 hours
- Lifetime warranty if genuine Medify filters are used at the recommended cadence

Item	Part Number
MA-40, Black	MA-40-B1
MA-40, White	MA-40-W1
MA-40 Filter Replacement	MA-40R \$59.99

MA-50 MSRP \$324.99 | **B2B \$292.49**

- UV light disinfection
- Can clean 2,200 sq. ft. every 60 minutes, 1,100 sq. ft. every 30 minutes, 550 sq. ft. every 15 minutes
- Pre-filter, True HEPA H13 filter, and Activated carbon for odors
- CADR (Clean Air Delivery Rate) of 500m³/h
- 5 Fan Speeds
- 2-12 Hour Timer
- Filter Indicator
- Filter lasts 2,500 hours or 3-4 months
- Lifetime warranty if genuine Medify filters are used at the recommended cadence

Item	Part Number
MA-50, Black	MA-50-B1
MA-50, White	MA-50-W1
MA-50 Filter Replacement	MA-50R \$69.99
