## FIREMAN WATER WETTER

*Increases the penetrating ability of water*

This special chemical additive increases the wetting and penetrating ability of water. Designed for use in fighting stubborn, smoldering fires, it reduces the surface tension of water to allow it to penetrate faster and reduces the total amount of water needed to extinguish the blaze. Its formula is biodegradable and non-corrosive, so it won't harm water tanks and fittings. It's also compatible with firefighting foams and tank protectors.

### Use On:

- Upholstery Fires
- Bedding Fires
- Paper Fires
- Hay Fires
- Brush Fires
- Roadways to control dust

### Features and Benefits

- Increases the wetting and penetrating ability of water.
- Special wetting agent is designed to help fight stubborn, smoldering fires in upholstery, bedding paper, hay and brush.
- Treated water penetrates more quickly, extinguishing blazes with only 1/3 as much water.
- Biodegradable and non-corrosive formula.
- Will not harm tanks or fittings.
- Compatible with foams and tank protectors.

### Directions *Complete directions on product label*

To increase the wetting ability of water used in a fire, use to 1 gallon per 100 gallons of water.

To control dust on unpaved roads and yards: Mix 1-2 quarts per 100 gallons of water then spray over roads.

### Properties

Appearance.....	Green Liquid
Fragrance.....	Detergent
Concentrate.....	Yes
Biodegradable.....	Yes

### Active Ingredients

### CAS Number

Water.....	7732-18-5
Alcohol Ethoxylate.....	68439-46-3
Green dye.....	19381-50-1

### Safety

CAUTION: May irritate eyes. Keep out of the reach of children
